

Property Maintenance & Code Compliance

The City is committed to providing a safe, attractive, and livable City for all our residents, business owners, and visitors. Our Code Office is charged with ensuring properties are maintained in accordance with code regulations and standards adopted by the City. As we implement renewed efforts to work with property owners to create attractive neighborhoods, Code Officials will make contact with an emphasis on education and compliance. Property owners who fail to comply will be issued code citations that will impose a fine and possible penalty assessments.

Questions regarding our property maintenance and land use regulations? please contact the Office of Planning and Economic Development at 692-9517.
