WALK THROUGH OF ASH STREET PARK

We assessed the park visually to get ideas of where to place raised beds in order to define walkable area into park, decide where to make an actual bed for milk weed plants, border off sides on the sidewalk sides, and to define the park better.

Planting will be done next year. This year we will concentrate on defining the park, bed locations, benches any additional trees. We are also hoping to have a grant to help fund the project. Matt Gerding will put on paper ideas we/ he had to visualize the design and Public Works will begin to implement these ideas

ADJOURN

The walk through meeting adjourned at approximately 1:00 p.m.

Respectfully submitted,

Nancie Cameron, Recreation Committee Chair
